TO ALL QUALIFIED CONTRACTORS

As a result of the very low DBE participation in the November bid opening, we have conducted a comprehensive review of our ability to obtain the 8.12 percent annual DBE participation goal. We have determined that nine projects in the February 17, 2006, bid opening have the potential for more DBE participation and will be adjusted accordingly.

Future bid openings will also have projects reviewed for increased participation in order to help us achieve our annual goal. We look forward to working with you in this endeavor.
